Re: REPORT VIOLATION OF STATE LAW and REQUEST FOR IMMEDIATE PROSECUTION

The people listed below met illegally ...violating the Brown act. There were more than a dozen witnesses. They viewed the repeated attempts by citizens to stop the illegal meeting. There was no posting of the meeting. They repeatedly insisted that the meeting was posted when it was not. The violators proceeded to act as a body and voted for officers, etc.

It was the first time they met ever that the public knows of. They appear to have been manipulated by and for the benefit of **Tom Burns** and second in command **David Lee** to enhance personal power in the Planning Department of Santa Cruz County

The meeting occurred July 23rd 2008 in the County building on Ocean Street. It began about 4:30 P.M.

Those clearly violating the law were:

Michael Bethke,
Daniel Bronson
Michael Bush,

Joseph Quigg - was absent and therefore should be excluded from prosecution

It to all appearances there was something more nefarious than just the illegal meeting behind this "phantom" state mandated Board of Appeals. We insist that the law be applied without prejudice.

We expect neither excuses nor favors concerning this apparent crime. Public confidence and integrity depend on serious application of the law.

With Great Concern,
