Randy D. Schneider,

The truth is inflammatory sometimes. I see you didn't disagree with anything that was written. My guess is that if you thought it out ... you would join with us for the vital immediate need for reform and "due process". That is unless **civil** and **property rights** ... take a back seat to the billionaire's "environmental tricks" steal your and your neighbor's property.

That process is happening here in Santa Cruz. They are replacing the very unique "self government" structures here in the United States with the age old tyranny of feudalism ... **UN Agenda 21**.

Your "thinking process" caused you ... to **avoid addressing** any of the issues raised. You resort to invectives that don't apply.

Many others besides you have been ensnared with the ... lofty stated purposes of **Agenda 21**. But the "good cause" ... is a deceit perpetrated on the people. These folks, like you, were also tricked ... but have woken up to the scam . . . and are educating others in a gentler way than me.

Perhaps you hold different standards.

I can only assume and guess ... since Randy ... you don't write anything except insults ...

... that you are opposed to due process guaranteed by the Constitution and you are for keeping corruption hidden by a professional organization. An organization that offers as one the benefits of membership ... keeping that membership currently informed. Obviously you are not.

*They are not only not informing you ... but criticizing those who do.*

If these assumptions are right ... it is you Mr. Schneider ... (the person you see in the mirror) ... that is more likely to be a ... "mister right wing neo-con".

Have a Good Day

### **Who is to be the Recipient of the Santa Cruz Alger Hiss Award?**

**Alger Hiss** created the **United Nations** for the Bankers and the **International Elite**. Elitism exists here in Santa Cruz. One of the backers of **Agenda 21** ... Barbara Palmer is head of a board that is supposed to represent the **Realtors**. **Agenda 21** transfers the property from the people to the state and eventually to the elite who want to control the world.

There seems to be a massive conflict of interest.

**Barbara Palmer** has recently contributed hundreds of dollars to **Mr. Agenda 21, ... Sam Farr** himself.

**Agenda 21** is a *cashist program* designed to transfer property from the people to the elite who are attempting to establish a **North American Union** and a New World Order.

Victims are being punished by "**rural cleansing**". A semi covert *project* called **Wildlands Project** for the land grabbers for the globalist elite. (recently 1.2 million acres of private property in Monterey and SLO has been made a no build zone because of the "**red legged frog**".)

Here in Santa Cruz it is Tom Burns "**red tag team**" that is destroying the wealth of burn victims to eventually be redeemed by the beneficiaries of **Agenda 21**. Over 5000 red tags are active in this county.

I don't know if **Barbara Palmer** is going to receive the coveted **Alger Hiss** award but certainly she should be a nominee. She is the fox in the henhouse. She claims to represent the **Realtors**. I suspect it is the other way around. She deserves a monument next to **Hugh DeLacy** on the steps to the Santa Cruz Court house put there by the **Board of Stupidvisors**.

Our **double sided flyer** (see attached) on the Planning Department has been **welcome by Realtors, title companies, contractors, architects** all over the county. Except for one. **I was surprised** when a "lady" shoved back the flyer to me saying she knows all about it.

She complained that I had sunglasses on. And said that wearing them ... wasn't polite. I was going in and out of local businesses and real estate offices all day. Dropping off flyers **welcomed** by everyone except her.

**Palmer** said she was *in charge of informing the Realtors* in the county as to what was happening. (You can see a problem arising here) She was hostile and appeared concerned that others in the office had the flyer.

On the way out ... I asked an agent who she was ... **Barbara Palmer**. What is the game she is playing? I suspect it is **21**.

I have never seen her at any Board of Supervisors meetings although she is supposed to be the representative of the people interested in property rights. Who is she? She is chair person in charge of the **Local Government Relations** of the **Santa Cruz Association of Realtors**. How do you like those apples?

Two staff members from **Sam Farr's** office worked on formulating **Agenda 21** (Donna **Blitzer** was one).

**Sam Farr** flies the **UN flag** at his "new world order" office in Washington D.C.

**Barbara Palmer's** check was not to the fire victims ... who stand to lose their property ... but to **Sam Farr** ... who backs **Tom Burns** imposing **UN law** rather than *due process* and his *corrupt Department of Deception*.

**Sam Farr** wrote on June 3, 1997 a *congratulatory letter* to the **UN agency** for completing the "Local Agenda 21" and bragged that he was "spearheading a similar effort, ... for the entire Monterey Bay region (Santa Cruz, Monterey and San Benito counties). **Sam Farr's** letter is part and parcel of the **Final Draft of Agenda 21**. This **United Nations policy** was adopted by the **Board of Supervisors** and it looks like Palmer doesn't want the people to know about it.

Is **Barbara Palmer** spiking knowledge while sending money to the chief spokes person for the **Agenda 21's** "globalist gang?"

And now I know why ... she is not a friend of the Realtors ... or property owners, in my opinion. Could it be that she is playing ball with the other team?
