## Wake Up Monterey - KION Radio

**KION** ... called the **Association of Real Estate Advisors** (AREA) after reading about the **Sentinel** *suppression of news* regarding the **Santa Cruz Planning Department**.

The **Sentinel** has been spiking story after story and basically printing news releases of, for and by the government.

**KION** is **1460** on the AM dial (6:00 A.M. - 9:00 A.M.) and covers the whole of **Monterey Bay**. The appropriate title of the daily program is **Wake Up Monterey**. It can be heard during morning drive time by many more people than those who read the **Sentinel**.

Discussed was the stripped away rights of the people in the **AMBAG** area by the adoption of **Agenda 21** ... financed behind the scenes by the Foundations and people of wealth.

The latest facts discovered by AREA is that ... the **Stupervisors of Monterey** ... created their board of appeals ... by appointing people who were never notified that they were appointed! The majority was appointed in 1988. Over 21 years ago and has never met to anyone's knowledge!

A lot of money going to attorneys ... lots of fines and permit fees.

A caller confirmed that ... *United Nations propaganda* ... continues to be impressed on Monterey county. The harmonization of laws in preparation for a North American Union is in process

The web site <http://www.straighttalknews.org/> was given as a reference for 'Planning Abuses' and Code information and the **Association of Real Rstate Advisors** was invited back.
