Subj: The person who should be helping the most ... is working against us

## To Those Fighting the Lawless Planning department and for Self-government

### A rude lady?

Our double sided flyer on the Planning Department has been **welcome by Realtors, title companies etc.** all over the county. So **I was surprised** when a "lady" shoved back the flyer to me saying she knows all about it. This was at **Bailey's Real Estate** office in Aptos.

She complained that I had sunglasses on. And said that wearing them wasn't polite. I was going in and out of contractors and real estate offices with a bright sun overhead ... dropping off the welcomed flyers.

She said she was in charge of informing the Realtors in the county. (You can see a problem arising here)

I have never seen her at any BOS meeting. She was hostile and appeared concerned that others in the office had the flyer.

I didn't know at the time ... she is the chair person in charge of the **Local Government Relations** of the **Santa Cruz Association Real Estate**.

At least two staff members from **Sam Farr's** office worked on formulating **Agenda 21** (**Donna Blitzer** was one). They seem to move Blitzer around to multiple "*controlling foundation*" fronts in the community.

**Sam Farr** flies the **UN flag** at his office. The **UN** is counter to **American principles**.

The same month the **Ghost Appeals Board** met in violation of the **Brown Act** (July 23, 2008) ...

**Barbara Palmer** was not there informing Realtors or *defending property rights* ...

**Barbara Palmer** was writing a check for **Sam Farr's reelection**.

**Sam Farr** ... wrote on June 3, 1997 a congratulatory letter to the **UN agency** for completing the "**Local Agenda 21**" and bragged that he was "spearheading a similar effort, ... for the entire Monterey Bay region (Santa Cruz, Monterey and San Benito counties).

**Sam Farr's** letter is part and parcel of the **Final Draft of Agenda 21** that was adopted by the **Board of Supervisors** and is why we suffer a lack of *due process* and *self government*.

I suspect **Barbara Palmer** is deliberately spiking knowledge and keeping the Realtors in the dark.

And now I know why ... she is not friend of the Realtors ... nor property owners ... and was rude to me.
