Subject: RE: Board of Appeals request

I am sorry I e-mailed you yesterday about needing some assistance from you. I had been told by County Fire that an Appeals Board type appeal was in the works. The applicant is appealing a driveway/access code on being made by Co. Fire. I thought the Fire Code as adopted says that the County has to provide the staff either from the Building Department or the Fire Department. It was intended that when it is all the appeal, that they do the work and visa versa. Mike Dover told them it was the Building Officials responsibility and I thought differently. After looking at the plans this morning with the Fire Chief I think we will find the Building Permit and the Appeals Board issue will go away. It was an opportunity for me to become familiar with the process although I would like to know if the Board of Supervisors has appointed all 5 member seats. John deCourcy's has a few years old and at that time there were only 3 members appointed. My I contact the Clerk of the Board for the list of members?

Tom, This morning I met with the Fire Chief from County Fire and I believe the matter to be resolved
